

# Mythbusters

Learning the whole truth  
and nothin' but the truth!

In the coming weeks, Dr. Joe will be discussing a few phrases and Bible verses that we have heard a lot in our lives. Even though we may know these phrases, we may not know their real meanings! In order to know a phrase, we must know where that phrase started. And in order to know what a Bible verse means, we have to start at the source - the Bible!

- 1.) Watch our Children's Video. Remember the section labeled "Guess the Picture?" How many objects were you able to guess before the pictures zoomed out?
- 2.) Why was it difficult to guess the objects when we only saw a small part of the picture?
- 3.) Can you think of a time in your life where you saw only a small part of the story? What happened when you saw the larger picture?
- 4.) What are some ways we can make sure to understand what God is telling us? How can His Word help us to see the whole picture?
