

Thankful for the Struggle

Life can be really hard sometimes. God can use our struggles to help teach us something important or to bring us more joy than we ever knew was possible! But when we are in the middle of it, the middle of something really hard, it's sometimes hard to see God's plan. But we can pray to him, share our struggles, ask for His deliverance from troubles, and ask that His will be done!

- 1.) What are some difficult things you have experienced?
- 2.) Has something hard ever happened that resulted in something really good? Like a really awesome reunion with family? A pair of new glasses?
- 3.) Have you experienced struggles that taught you something? Like how to work hard when you had to study for a really difficult test? How to be patient and grateful when you missed your friends when schools closed down?
- 4.) How can we pray to God this week to help us through our struggles? How can we thank God for never leaving us even in our most difficult days?
